Mr. Harold Denton
Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Jan. 2, 1987

Dear Mr. Denton:

I appreciate your serious attention to problems at the Shearon Harris Plant near Raleigh. I urge you to continue in your efforts to insure the safety of residents of this area by requiring CP&L to abide by all federal regulations.

I understand that you have been notified of the serious safety violations and construction defects at Shearon Harris; please ensure that these are fully investigated and corrected before the plant is allowed to operate.

Please require CP&L to complete successful testing of the plant before granting it a license.

I also urge you to require CP&L to comply with federal regulations for a full-scale evacuation drill before it begins operation.

Sincerely,

Carol A. Flath
