Gentlemen:

SUBJECT: NRC INSPECTION REPORT NO. 50-400/87-30

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by A. E. Tabaka on August 3-7 and 11, 1987. The inspection included a review of activities authorized for your Shearon Harris facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Within the scope of the inspection, no violations or deviations were identified; however, your attention is brought to the self identified violation discussed in Paragraph 9 of the enclosed inspection report. We will be examining the adequacy of your corrective actions for this item during future inspections.

Your attention is invited to the unresolved item identified in the inspection report. This matter will be pursued during future inspections.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.
