NRC REVIEW OF INSERVICE TESTING PROGRAM CHANGES

Gentlemen:

Carolina Power & Light Company (CP&L) hereby requests additional clarification concerning NRC review and approval of changes to the Shearon Harris Nuclear Power Plant Inservice Testing (IST) Program. By letter dated September 29, 1988, the NRC provided additional information concerning IST program changes which require NRC review and approval prior to implementation. Carolina Power & Light Company requests clarification of the staff's position on those IST Program changes which do not involve relief from ASME Code requirements or changes to previously granted relief. These non-relief related changes would include administrative changes and additions or deletions of components to the IST Program.

Please refer any questions regarding this submittal to Mr. Steven Chaplin at (919) 836-6623.

Yours very truly,

Leonard I. Loflin
Manager
Nuclear Licensing Section
