SHEARON HARRIS NUCLEAR POWER PLANT
DOCKET NO. 50-400/LICENSE NO. NPF-63
SUPPLEMENT TO REQUEST FOR LICENSE AMENDMENT
SRO REQUIREMENTS FOR MANAGER - OPERATIONS

Gentlemen:

Carolina Power & Light Company hereby submits a supplement to the January 4, 1988 license amendment request for the Shearon Harris Nuclear Power Plant (SHNPP) regarding Technical Specification 6.2.2.e. This submittal is a result of conversations held between members of the Staff and CP&L personnel.

Currently, Technical Specification 6.2.2.e requires that the Manager - Operations hold a Senior Reactor Operator (SRO) license. The proposed change would allow the Manager - Operations to: (1) hold an SRO license; (2) have at one time held an SRO license; or (3) meet the qualifications for plant managers specified in Section 4.2.1 of the September 1979 draft of ANS 3.1. Based on discussions with the Staff, CP&L has removed Option 3 from the request. Enclosure 1, provides a revised Technical Specification page reflecting this change.

The Company's January 4, 1988 request was prenoticed on March 9, 1988 (46 FR 7587). Removal of Option 3 from the original request does not affect the conclusions reached in the 10 CFR 50.92 analysis provided in the January 4, 1988 submittal or the March 9, 1988 prenotice. As such, the 10 CFR 50.92 analysis remains valid and an additional prenotice of this request should not be necessary.
