

JUN 20 1989

MEMORANDUM FOR: Jack Rosenthal, Chief
 Reactor Operations Analysis Branch
 Division of Safety Programs, AEOD

THROUGH: Peter Lam, Chief
 Reactor Systems Section W and B&W
 Reactor Operations Analysis Branch
 Division of Safety Programs, AEOD

FROM: Frederick M. Manning
 Reactor Systems Section W and B&W
 Reactor Operations Analysis Branch
 Division of Safety Programs, AEOD

SUBJECT: EVALUATION OF COMBINATIONS OF INDIVIDUALLY
 REPORTED LERS FOR SIGNIFICANCE

The enclosed technical review report was intended to evaluate the safety significance of the subject events. The report concludes that these events, each of relatively minor significance individually, were together moderately significant, and the corrective actions taken by the licensee were adequate. Therefore no further action by AEOD other than monitoring these types of events is required.

Original signed by

Frederick M. Manning
