Gentlemen:

In reference to your December 8, 1989, Inspection Report 50-400/89-28, Carolina Power and Light Company on January 3, 1990, responded to the Notice of Violation identified in the report. At the time of our response, it was expected that the planned corrective steps to prevent further violations would be completed by February 1, 1990. The purpose of this letter is to inform you that certain corrective actions will not be completed until March 1, 1990. Specifically, 1) the establishment of guidelines for overtime worked by personnel involved in testing of safety-related equipment and 2) the development of a plant general order which will provide specific controls and exclusions concerning the use of instrument air for activities requiring connection to internally contaminated systems. This matter was discussed with the Harris NRC Senior Resident Inspector, Mr. Jeff Tedrow, on January 30, 1990.

Thank you for your consideration in this matter.

Very truly yours,

R. B. Richey
R. B. Richey, Manager
