Federal Emergency Management Agency

Washington, D.C. 20472

JUL 9 1990

Mr. Frank J. Congel
Director
Division of Radiation Protection
and Emergency Preparedness
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Congel:

Enclosed is a copy of the final exercise report for the September 14, 1989, partial-participation joint exercise of the offsite radiological emergency preparedness plans site-specific to the Shearon Harris Nuclear Power Plant. The State of North Carolina and Chatham, Harnett, Lee, and Wake Counties, all located in the 10-mile plume emergency planning zone, participated in the exercise.

There were no deficiencies or areas requiring corrective actions identified during this exercise. There were several areas recommended for improvement. The exercise report was prepared by the Region IV staff of the Federal Emergency Management Agency.

Based on the results of this exercise, the offsite radiological emergency plans and preparedness are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site. Therefore, the 44 CFR 350 approval granted on March 28, 1989, will remain in effect.

FEMA Region IV staff will furnish a copy of this final exercise report to the State of North Carolina.

If you should have any questions, please contact Mr. Craig S. Wingo, Chief, Technological Hazards Division, at 646-3026.

Sincerely,

Dennis H. Kwiatkowski

Dennis H. Kwiatkowski
Assistant Associate Director
Office of Natural and Technological
Hazards Programs
