Gentlemen:

SUBJECT: REPORT NO. 50-400/90-21

Thank you for your response of December 28, 1990 to our Notice of Violation issued on November 30, 1990, concerning activities conducted at your Harris facility. We have evaluated your responses to violations A and B, and reviewed your response to violation C, in which you did not agree with the Severity Level IV, and stated your belief that a Severity Level V was more appropriate.

We have evaluated the responses to the violations cited above, and found that the responses to violations A and B were satisfactory, and after careful review of the circumstances surrounding violation C, we concur with your assessment that this violation should be a Severity Level V instead of a Severity Level IV. This is based on the fact that failure to terminate operator licenses within 30 days upon termination of a licensed operator is not a significant safety or environmental issue. Our records will be changed accordingly.

The responses to violations A, B, and C meet the requirements of 10 CFR 2.201, and we will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

ORIGINAL SIGNED BY
