

June 27, 1991

Mr. Marvin C. Pate
Harris Energy & Environmental Center
Route 1, Box 327
New Hill, NC 27562-0241

Dear Mr. Pate:

In response to your letter dated June 17, 1991, I have enclosed with this letter the four 3-1/2" diskettes that you sent me, which now contain the latest copy of the Generic Fundamentals Examination Bank. The diskettes contain copies of all the files which make up the Pressurized Water Reactor Plant and the Boiling Water Reactor Plant GFES banks. Two types of files are on the diskettes. The files with the "TXT" extension contain all questions which have been used on previous GFES examinations and have been through the validation process. The files with the "ALL" extension contains all bank questions that may be used and validated on future GFES examinations. Although most of the questions contained in these files will be used as they appear in the bank, some questions may be altered to improve the question, and some new questions may be added to fill gaps in the bank.

If after reviewing these files, you wish to submit comments suggesting improvements to questions, new questions, or deletion of questions, please forward these comments to:

Robert M. Gallo
US NRC
MS: OWFN 10 D-22
Washington, DC 20555

I appreciate your interest in using and reviewing these questions.

Sincerely,

Original signed by:

Robert M. Gallo, Chief
Operator Licensing Branch
Division of Licensee Performance
and Quality Evaluation, NRR
