SHEARON HARRIS NUCLEAR POWER PLANT
DOCKET NO. 50-400/LICENSE NO. NPF-63
SUPPLEMENTAL INFORMATION TO REQUEST FOR LICENSE AMENDMENT
REACTOR COOLANT SYSTEM (RCS) FLOW MEASUREMENT CALIBRATION

Gentlemen:

The purpose of this letter is to provide supplemental information to facilitate the NRC's review of a Request for License Amendment submitted by Carolina Power & Light Company (CP&L) for the Shearon Harris Nuclear Power Plant (SHNPP) on December 16, 1991. The proposed amendment would revise Technical Specification 4.2.3.5 concerning the calibration of measurement equipment.

Following CP&L's December 16, 1991 submittal, the NRC Project Manager requested that CP&L provide copies of the Westinghouse WCAP (Proprietary and Non-Proprietary versions) that was referenced in the Request for License Amendment. On January 29, 1992, CP&L submitted Westinghouse WCAPs 12340 and 12341 as well as supporting documentation and appropriate notices. However, that submittal was not signed under oath and affirmation. At the NRC's request, this letter serves to provide such declaration.

Please refer any questions regarding this submittal to Mr. R. W. Prunty at (919) 546-7318.

Yours very truly,

G. E. Vaughn

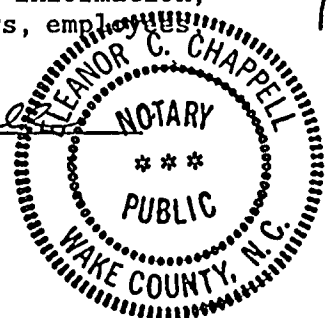

LSR/lsr

G. E. Vaughn, having been first duly sworn, did depose and say that the information contained herein is true and correct to the best of his information, knowledge and belief; and the sources of his information are officers, employees, contractors, and agents of Carolina Power & Light Company.
