SHEARON HARRIS NUCLEAR POWER PLANT
DOCKET NO. 50-400/LICENSE NO. NPF-63
REVISED TECHNICAL SPECIFICATION PAGES
RADIOLOGICAL EFFLUENT TECHNICAL SPECIFICATIONS (GENERIC LETTER 89-01)

Gentlemen:

On July 21, 1992, Carolina Power & Light Company (CP&L) submitted a request to revise the Technical Specifications (TS) for the Shearon Harris Nuclear Power Plant (SHNPP). The proposed amendment requests revisions in accordance with the guidance of Generic Letter 89-01 relative to the Radiological Effluent TS.

Your staff recently requested that CP&L make some changes of an administrative nature in the proposed TS pages submitted on July 21, 1992. Enclosed are revised pages which incorporate these items. The majority of the changes are due to the relocation of the "deletion" notes to the bottom of the TS pages. Other minor administrative corrections are also included.

Questions regarding this matter may be referred to Mr. R. W. Prunty at (919) 546-7318.

Yours very truly,

David C. McCarthy
Manager
