**SHEARON HARRIS NUCLEAR POWER PLANT
DOCKET NO. 50-400/LICENSE NO. NPF-63
REQUEST FOR LICENSE AMENDMENT
PLANT NUCLEAR SAFETY COMMITTEE COMPOSITION - SUPPLEMENT**

Gentlemen:

In accordance with the Code of Federal Regulations, Title 10, Parts 50.90 and 2.101, Carolina Power & Light Company (CP&L) hereby supplements a request to revise the Technical Specifications (TS) for the Shearon Harris Nuclear Power Plant.

On October 22, 1993, CP&L submitted a Technical Specification Change Request that would revise the manner in which PNSC member composition is specified. Based on subsequent discussions with the NRC staff, CP&L is herein amending the change request to include specified limits on the number of PNSC members (see revised Insert 1). Revised marked-up and retyped pages are enclosed with this letter. The significant hazards consideration and environmental consideration discussions provided with the original submittal on October 22, 1993 are unaffected by the enclosed revision.

Please refer any questions regarding this submittal to Mr. D. C. McCarthy at (919) 362-2100.

Yours very truly,

W. R. Robinson - General Manager
Harris Nuclear Plant
