**SHEARON HARRIS NUCLEAR POWER PLANT
DOCKET NO. 50-400/LICENSE NO. NPF-63
REQUEST FOR LICENSE AMENDMENT
EMERGENCY DIESEL GENERATOR MAINTENANCE AND SURVEILLANCE
ADDITIONAL INFORMATION**

Gentlemen:

By letter dated May 15, 1993, Carolina Power & Light Company (CP&L) submitted to the NRC a request for a revision to the Operating License (OL) for the Shearon Harris Nuclear Power Plant (SHNPP). The proposed amendment would remove license conditions for the Emergency Diesel Generators (EDGs) specified by Condition 2.C.(8) and defined in Attachment 1 to Operating License NPF-63.

CP&L's conclusions were based on the generic submittal of the Transamerica Delaval, Inc. (TDI) Owners Group entitled "Generic Licensing Submittal for Emergency Diesel Generators, Conditions of License for Utilities with Enterprise Engines," dated December 8, 1992 in a letter from J. B. George and C. W. Hendrix to the NRC. That generic submittal was incorporated by reference in CP&L's May 15, 1993 request. The TDI Owners Group also submitted Revision 1 of the generic submittal to the NRC by letter dated May 3, 1993. The purpose of this letter is to incorporate by reference Revision 1 of the generic submittal into CP&L's request. The 10 CFR 50.92 evaluation provided as part of our May 15, 1993 request is unaffected by this additional reference.

Additionally, any reference to Condition 2.D.(8) in the May 15, 1993 submittal should be replaced with 2.C.(8).

Questions regarding this matter may be referred to Mr. R. W. Prunty at (919) 362-2030.

Yours very truly,

W. R. Robinson
