NOTICE OF VIOLATION

Carolina Power and Light Company
Shearon Harris Unit 1

Docket No.: 50-400
License No.: NPF-63

During an NRC inspection conducted on February 19 - April 2, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C, the violations are listed below:

Technical Specification 6.8.1.c. requires written procedures to be established, implemented, and maintained covering Security Plan implementation.

The licensee's Security Plan, paragraph 1.6.4.1.a, requires designated vehicles, when not in use, to be properly controlled.

Procedure SP-007, Access Control & Personnel Identification, which implements the Security Plan, requires in step 6.11.1 that designated vehicles will be parked at specific locations within the protected area with the ignition locked and the keys removed.

Contrary to the above, on March 5, 1994, an unattended designated vehicle was found not properly controlled with keys left in the ignition.

This is a Severity Level V violation (Supplement III).

Pursuant to the provisions of 10 CFR 2.201, Carolina Power and Light Company is hereby required to submit a written statement or explanation to the U. S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D. C. 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or demand for information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.
