

July 19, 1994

Docket No. 50-400

LICENSEE: Carolina Power & Light Company

FACILITY: Shearon Harris Nuclear Power Plant, Unit 1

SUBJECT: SUMMARY OF MEETING HELD ON JULY 7, 1994, WITH CAROLINA POWER & LIGHT COMPANY

A meeting was held with Carolina Power & Light Company (CP&L), on July 7, 1994, in Rockville, Maryland. The purpose of the meeting was to discuss future submittals planned by CP&L, the status of the NRC's review of previous submittals, responses to generic communications, NRC concerns, and other general coordination of licensing activities.

Enclosure 1 is a list of meeting attendees. Enclosure 2 contains the hand-out material (18-month Regulatory Schedule), which describes current and planned activities that were discussed at the meeting.

Original Signed by:

Subject: SHNPP 18-Month Regulatory Agenda

Attached is the June revision of the SHNPP 18-Month Regulatory Agenda for the period May 1, 1994 through October 31, 1995. This is used as a tool by the Licensing and Regulatory Programs Unit and the NRC Project Manager in managing work items requiring interaction with NRR. Items defined as Cost Beneficial Licensing Actions are identified by the notation "CBLA."

If you should have questions about a particular item, please contact me.

ATTACHMENT 1

**18-MONTH REGULATORY AGENDA  
PROCESS DESCRIPTION**

- o Items are divided into five categories (Z1, Z2, Z3, Z4, and Z5).
- o Categories Z1 and Z2 require some type of "NRC action" to support the plant (i.e., issue Technical Specification changes, approve relief requests, etc.).
- o Category Z3 items do not require "NRC action" to support the plant (i.e., CP&L responses to Generic Letters and Bulletins, FSAR amendment submittal, etc.).
- o Category Z4 items (not attached) are those items already submitted to the NRC for which CP&L needs no response. Closeout is tracked as an indication of additional NRC workload competing for resources with Z1 and Z2.
- o Category Z5 items are potential Technical Specification changes or submittals which are presently unscheduled.
- o Items which are of greatest importance to plant operations generally are grouped in Category Z1.
- o Items within a category are prioritized by letter designation with "A," representing the highest priority.
- o Priorities are established through discussions with the Manager - Regulatory Compliance.
- o The "target" schedules are established through discussions with the NRC PM, recognizing plant "need dates" as well as the need to levelize demand on NRC resources. "RD" denotes a required date to which some specific plant action is tied.
