 US Nuclear Regulatory Commission  
 Washington, DC 20555-0001

Dear Sir/Madam:

I am writing regarding the spent fuel issue in Shearon Harris, North Carolina. (See January 13, 1999, page # 2240 of federal register.) I am concerned that this facility will expand its capabilities, as well as, begin accepting spent fuel rods from other nuclear reactor sites. If this happens, this site will be the largest spent-rod storage site in the United States:-

DIVISION OF CONTRACTS &  
PROPERTY MANAGEMENT

The Shearon Harris site is located extremely close to densely populated areas. I believe that other, less populated areas should be considered for the storage of this nuclear waste.

Please do not approve the expansion of the Shearon Harris facilities or its acceptance of additional nuclear waste.

Thank you for your time and consideration.

Sincerely,

Richard D Eledge
