August 10, 1979

United States Nuclear Regulatory Commission  
Washington, D. C. 20555

Attention: Director, Division of Site Safety and Environmental Analysis.

Gentlemen:

The Susquehanna Steam Electric Station is located in Luzerne County. The Draft Environmental Statement (NUREG-0564) of the U. S. Nuclear Regulatory Commission was reviewed by the Luzerne County Planning Commission on August 9, 1979, at its regular monthly meeting at which a quorum was present.

After due consideration, a motion was made, seconded, and unanimously carried to make two (2) recommendations to the U. S. Nuclear Regulatory Commission:

1. That an Emergency Evacuation Plan be completed by the Luzerne County Civil Defense Agency before the Susquehanna Steam Electric Station goes into operation; and
