DOCKET NUMBER  
PROD. & UTIL. INC. 50-400/403

Dear Committee Members,

I am writing concerning Docket Number 50-400, the hearings to be held beginning February 27, 1979 in Raleigh, N.C. on the safe management capabilities of Carolina Power and Light in its operation of nuclear facilities. I would like to request that these hearings be held in the evenings after 6 p.m. or on weekends as originally promised. Few people other than CP&L executives would be able to attend hearings held during the day. In the interest of the public that your agency is designed to serve, please schedule the hearings so that the public may attend them.

I

Sincerely,

Pamela S. Baggett
