MEMORANDUM FOR: Edward S. Christenbury, Chief Hearing Counsel, OELD  
FROM: D. B. Vassallo, Assistant Director for Light Water Reactors, Division of Project Management  
SUBJECT: BOARD NOTIFICATION - SHEARON HARRIS FAULTING (BN-79-19)

The enclosed memorandum from the LPM recommends informing the Shearon Harris Board of additional faulting discovered in the main dam area. I recommend this memorandum be provided to the Board for information. Once again, however, we should advise the Board that preliminary investigations by both the applicant and staff indicate the faults to be not capable. We will follow up with Board information if any further investigations change our conclusions.
