APPY

Carolina Power & Light Company

January 7, 1982

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
United States Nuclear Regulatory Commission  
Washington, D.C. 20555

**SHEARON HARRIS NUCLEAR POWER PLANT  
UNIT NOS. 1 AND 2  
DOCKET NOS. 50-400 AND 50-401  
OPERATING LICENSE HEARING**

Dear Mr. Denton:

By letter dated December 18, 1981, Carolina Power & Light Company (CP&L) submitted, for docketing, copies of the Application for Operating License, the Final Safety Analysis Report, and the Environmental Report - Operating License Stage for the Shearon Harris Nuclear Power Plant. Additionally, CP&L requested that only Unit 1 be considered for an operating license at this time, due to the interval between commercial operation of Unit 1 and Unit 2.

Upon further review of this request, CP&L has determined it to be more appropriate to consider both units at the same time for an operating license. Therefore, the Federal Register notice published pursuant to 10CFR2.105 should afford the opportunity for a hearing for the consideration of both Unit 1 and Unit 2 operating licenses.

If you have any questions on this subject, please contact our staff.

Yours very truly,

E. E. Utley  
Executive Vice President  
Power Supply and  
Engineering & Construction
