ACCEPTANCE REVIEW QUESTIONS

Dear Mr. Miraglia:

As requested by Mr. E. A. Licitra of your staff, please find enclosed 60 copies of Enclosure 1 and 41 copies of Enclosure 2 to our letter of January 29, 1982 which forwarded Carolina Power & Light Company's responses to the Acceptance Review Questions contained in Mr. D. G. Eisenhut's letter of November 25, 1982. Enclosure 1 addresses Final Safety Analysis Report (FSAR) questions and Enclosure 2 addresses Environmental Report (ER) questions. Additionally, copies of Enclosure 1 have been provided to the three national laboratories requested by Mr. Licitra.

ER Question 470.3 requested reprints of some ER tables. Because these tables are oversized, only five copies of these tables have been provided and are separated from Enclosure 2. Additionally, as directed by Mr. Licitra, additional copies of ER references have not been provided.

As has been previously indicated to you, CP&L is dedicated to being responsive to NRC's needs and to streamlining the licensing process. It was with this in mind that we provided the answers to the Acceptance Review Questions two months ahead of your requested schedule. It would be extremely helpful, however, if your staff would develop a streamlined distribution for the quick resolution of questions and concerns. Providing 40 to 60 copies of correspondence is cumbersome and potentially wasteful, given the cost associated with printing and mailing 60 copies of large documents, such as question responses, and the fact that these responses are provided for reviewer use; not as FSAR or ER Amendments. Formal amendments to the FSAR and ER will, of course, be provided in the specified numbers, but advance answers to questions would seem to be an area where fewer copies were required. We stand ready to continue to work with you to make the process as responsive and streamlined as possible, but feel this is an area where improvement is needed.
