Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission

Dear Mr. Case:

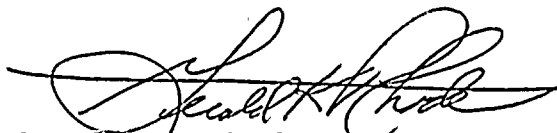

Re: Nine Mile Point Unit 2
Docket No. 50-410

This letter transmits 40 copies of revisions to the Stone and Webster Engineering Corporation's "Quality Assurance Program Manual, Nine Mile Point Nuclear Station - Unit 2." These revisions replace pages in the manual which were previously sent to Mr. J. F. Stolz of the Nuclear Regulatory Commission by letter dated July 8, 1976.

Revisions have been made to better define Stone and Webster Quality Assurance activities for Nine Mile Point Unit 2. Specific improvements include the appointment of a Stone and Webster Project Quality Manager and an upgrading of the Quality Assurance records systems. Revisions to the manual are indicated in the margins with the proper revision letter. Since these modifications improve the present program, implementation will be initiated May 1, 1978.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

Gerald K. Rhode, Vice President
