RE: Docket No. 50-220

Dear Mr. O'Reilly:

In accordance with Nine Mile Point Nuclear Station Unit #1 Technical Specifications, we hereby submit Licensee Event Report LER 77-22. This report was completed in the format designated in the Licensee Event Report Instruction Booklet OOE-SS-001 dated October 1974, revised December 8, 1975.

This LER is being transmitted beyond the thirty (30) day time limit; a verbal report was made to Mr. L. Norrholm on March 17, 1977 but the administrative work sheet was not completed at that time. Consequently the thirty (30) day report was not submitted in a timely manner. Responsible individuals were informed to follow the Administrative Procedure dictating the process for initiating Occurrence Reports.

Very truly yours,

 R.R. Schneider
 Vice President -
 Electric Production
