Dear Mr. Denton: 50-400 June 20, 1986

C.P. + L. (Carolina Power and Light) has not conducted a full participation test of the emergency plan for the Shears-Harris nuclear plant in Wake County, North Carolina.

Not only do I urge that this not be eliminated as a requirement, but I urge you to convey to the appropriate people at the N.R.C. that this plant should not be operated as a nuclear plant.

Within five miles of the plant is Jordan Lake which is being mentioned as a potential water supply source for towns in our area. This is a new development which should rule out the starting of this plant. Also, in tests about a month ago, a pipe separated at its weld and filled with sand. This plant needs to be stopped and a thorough study conducted of the cleanest and safest method of converting it from nuclear. Thank You! Michael Moscarini
