Mr. Denton,

The idea of having Shearon Harris Nuclear plant start up this year in my county (Wake) is very upsetting to me and my family. I have no faith in a utility company (CP&R) whose management doesn't have the foresightedness to insist on an adequate evacuation plan.

As a citizen who will have to live near this new plant I ask you to use your authority in demanding CP&R expand their evacuation plans to a more realistic distance. At least 10 miles.

Sincerely,
Peg Donovan
