Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
United States Nuclear Regulatory Commission
Washington, DC 20555

SHEARON HARRIS NUCLEAR POWER PLANT
UNIT NO. 1 - DOCKET NO. 50-400
COMMENTS ON FINAL DRAFT TECHNICAL SPECIFICATIONS

REFERENCE: Letter dated July 30, 1986 (NLS-86-273) from S. R. Zimmerman (CP&L)
to Mr. Harold R. Denton (NRC)

Dear Mr. Denton:

Carolina Power & Light Company (CP&L) submits additional comments on the Final Draft Technical Specifications (TS) for the Shearon Harris Nuclear Power Plant (SHNPP). Attachment 1 provides 20 comments (record numbers 779 through 798) on the TS as well as a justification for each comment. Attachment 2 provides a marked-up copy of 33 TS pages for the corresponding comments provided in Attachment 1. Attachment 3 provides 9 revised comment sheets and 17 TS pages based upon information provided during the staff's review of the referenced letter.

The comments are categorized as either an error or improvement item. The term error is used to denote changes required to have the TS reflect the plant design. Comments categorized as an error must be incorporated into the SHNPP TS to allow CP&L to certify the accuracy of the TS. The term improvement item is used to denote those significant changes that would improve the quality of the SHNPP TS and other typographical errors or consistency items.

If you have any questions, please contact Mr. Gregg A. Sindors at (919) 836-8168.

Yours very truly,

S. R. Zimmerman
Manager
