SUBJECT: Annual Summary Reporting

Dear Gentlemen,

American Radiolabeled Chemicals, Inc. (ARC) is reporting the annual summary of byproduct material transferred for use under 10CFR30.18 for calendar year 2016.

The total quantity of radioactive material transferred in 2017 was 250μCi, which was done through five (5) shipments of 50μCi each containing H3 labeled Saxitoxin in liquid form. The specific details of the shipment are on file at the ARC facility.

If you have any questions or require clarification on any of the information stated above, you may contact our Radiation Safety Committee at 314-991-4545.

Sincerely

Surendra K Gupta, Ph.D.
President
