Docket Nos. 50-387
50-388

SUSQUEHANNA STEAM ELECTRIC STATION
TRANSMISSION LINE CHANGES
ER 100450 FILE 991-2
PLA-101

Dear Mr. Regan:

In response to your letter of November 20, 1975, Pennsylvania Power & Light Co. is submitting, under separate cover, Amendment No. 4 to the Susquehanna Steam Electric Station Environmental Report. This Amendment describes the changes associated with the Susquehanna-Lackawanna 500 Kv transmission line which will be renamed the Susquehanna-Stanton 500 Kv transmission line. Except for it being 11 miles shorter, this new line is the same as the Susquehanna-Lackawanna line. Since construction of this new line will begin in June, 1976, the changes to it are being submitted at this time. An additional amendment, describing the changes to other transmission facilities associated with the Susquehanna Steam Electric Station, will be submitted on or about June 15, 1976.

This schedule was conveyed to your Mr. Singh Bajwa by our Mr. W. E. Barberich in a telephone conversation on 11/25/75.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction
