OFFICE OF
UNITED STATES COMMISSIONER

July 17, 1975

Mr. A. Giambusso
Director, Division of Reactor Licensing
Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Giambusso:

I appreciated receiving the comments of Mr. Muller relative to our draft Water Resources Program. A copy of his comments are enclosed.

I would suggest, however, that it might be beneficial for us to sit down and discuss in more detail the Basin Commission's role relative to the establishment of nuclear facilities within the Basin and certainly relative to the proposed generating units. I suggest you call Mrs. Williams (343-4091) to arrange this meeting at your convenience and we can discuss this further.

Sincerely,

Thomas C. H. Webster
United States Commissioner

JUL 7 1975

Honorable Thomas C. H. Webster
United States Commissioner
Susquehanna River Basin
Commission
Interior Building
Washington, D. C. 20240

Dear Mr. Webster:

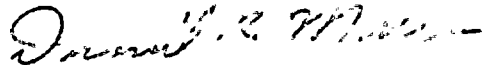

This is in response to your request of June 17, 1975, inviting our comments on the draft Susquehanna River Basin Commission's Water Resources Program.

We have reviewed the draft of the Water Resources Program for the Susquehanna River Basin and determined that the proposed action does not have radiological health or safety impacts, nor will it adversely affect any activities subject to regulation by the Nuclear Regulatory Commission. Accordingly, we have no significant comments or suggestions to offer.

I am enclosing for your information a list of nuclear facilities located within the Susquehanna River Basin. We would like to be informed of any subsequent action by the Commission that may affect the operation of any of these nuclear facilities.

Thank you for providing us with the opportunity to review the draft Water Resources Program for the Susquehanna River Basin.

Sincerely,

Daniel R. Miller, Assistant Director
for Environmental Projects
Division of Reactor Licensing
