Dear Dr. Butler:

In accordance with item 1 of the Mark II Containment Program described in our June 5, 1975 letter, we are enclosing 15 copies of the appropriate drawings. Attached is a list of the numbers and titles of these drawings.

Drawing M-141, Rev. 1, Nuclear Boiler P&ID, contains information on the safety relief valve (SRV) numbers, set points and modes of operation. This P&ID was forwarded to you in October, 1974.

The structural capability of the components and structures in the suppression pool which may be affected by SRV actuation will be submitted in November, 1975 as described in item 4 of the Mark II Containment Program.

Very truly yours,

Handwritten signature of N. W. Curtis in cursive.

N. W. Curtis
Vice President - Engineering and Construction
