Dear Mr. Parr:

PP&L has recently made the decision to install in Susquehanna SES the two-arm steam quenching system designed by Kraftwerk Union (KWU). This quencher will undergo full scale testing at the KWU testing facility prior to fabrication and installation.

To inform you of the key design features of the KWU Quencher, we would like to schedule a meeting with the appropriate members of the NRC staff during the week of November 28, 1977. Please let us know which date is suitable for you.

Very truly yours,

A handwritten signature in cursive script that reads "N. W. Curtis". The signature is written in dark ink and is positioned above the typed name and title.

N. W. Curtis
Vice President - Engineering & Construction
