Docket Nos. 50-387
and 50-388

Dear Mr. Parr:

To provide information requested by NRC, General Electric has submitted the following documents:

1. Mark II Containment Dynamic Forcing Function Information Report, NEDO/NEDE 21061, Rev.2;
2. Mark II Containment Supporting Program Report, NEDO 21297.

We request that these reports be adopted for use on Dockets 50-387 and 50-388.

A revision to the Susquehanna Design Assessment Report is scheduled to be submitted in March, 1977. This report will include responses to those questions, contained in your June 22, 1976 letter, that are plant unique and are not answered in NEDO/NEDE 21061, Rev.2.

Very truly yours,

N. W. Curtis
