PLA-78

Reference: NRC Letter from Dr. W. R. Butler to Mr. N. W. Curtis dated 2/18/75

Dear Mr. Butler:

The following is in response to the Staff's Position 1 in the above referenced letter:

STAFF POSITION 1:

The proposed change of the quality group classification of components in the liquid radwaste system (Item 11, Table A.2.3) from Group C to Group D is unacceptable. We would find a change of the quality group classification of these components to "Quality Group D (Augmented)" as described in Attachment A to be acceptable.

RESPONSE:

The quality group classification of the components in the liquid radwaste system will be changed from Group C to Group D (Augmented). This change will be included in a future FSAR Amendment.

Very truly yours,

N. W. Curtis

N. W. Curtis
Vice President - Engineering and Construction
