FILE 840-4

Dear Mr. Grier:

Reference is to my letter PLA-246, dated April 17, 1978.

We have not received from Westinghouse Switchgear Division all of the documentation which we require to finalize a definitive report of said deficiency. Pending timely receipt of an addendum to the existing seismic test report, we anticipate submittal of the final report by September 15, 1978.

You will be advised promptly should circumstances affect our ability to meet this new schedule.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction
