Lacey's Springs, AL 35754

July 9, 1980

Dear Mr. Denton:

I hope you and your family enjoyed their camping trip. It was unfortunate that you had to cut it short. There seems to be so little time for vacations and family activities, these days.

Now that you are back at your place of employment, I wonder if you might give some thought to the people of North Alabama. There is rising concern about the Tennessee Valley Authority's plans to construct an on-site incinerator (Browns Ferry Radwaste Reduction System). Browns Ferry Nuclear Plant is located in Athens, AL and the largest nuclear plant in operation in the United States. There are several largely populated areas within a thirty mile radius of the plant. The proposed facility would present significant health risks to the area.

I would like to take this opportunity to request a public hearing and an environmental impact statement on the proposed low level waste storage and incineration facility at Browns Ferry.

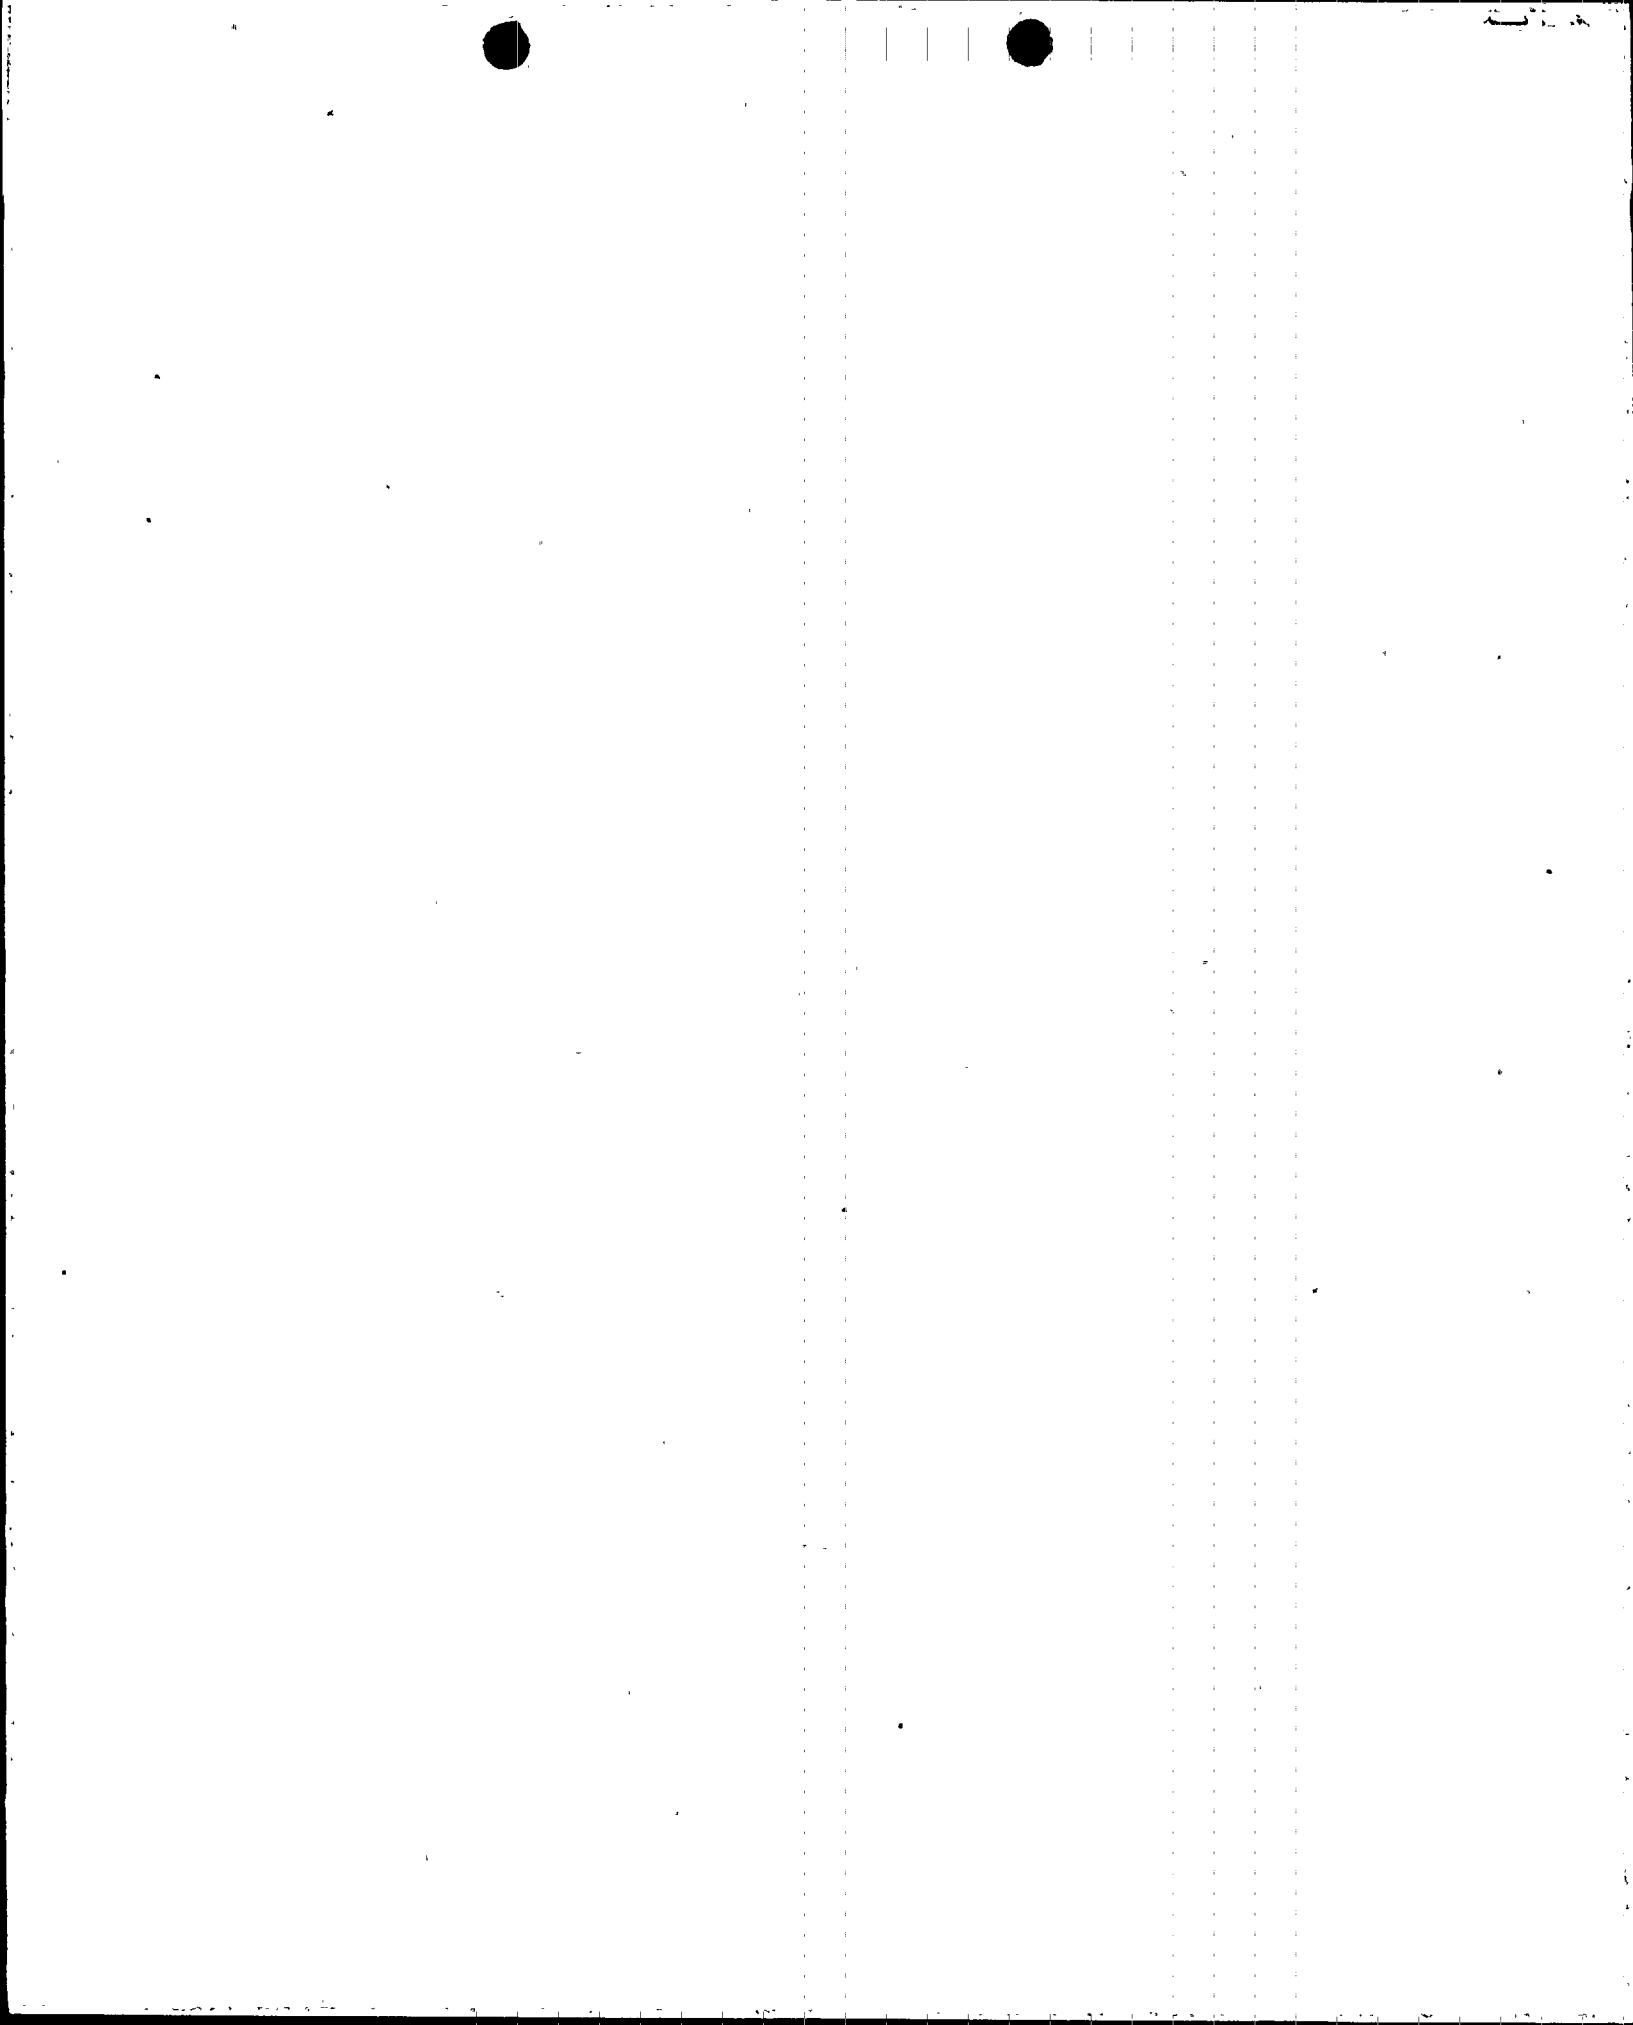

Thank you for your time and consideration of this important matter. I am looking forward to a response.

Sincerely,

Rose Hollingsworth
