Dear Mr. Satula:

Enclosed is the Final After Action Report/Improvement Plan for the Point Beach Nuclear Plant Radiological Emergency Preparedness Exercise held on September 19 & 20, 2017.

There were no Level 1 or Level 2 Findings identified for the State of Wisconsin or Kewaunee and Manitowoc Counties.

Based on the results of the exercise, the planning and preparedness for the State of Wisconsin and the affected local jurisdictions provide reasonable assurance that appropriate measures can be taken to protect the public health and safety. Therefore, Title 44 CFR 350 approval of the offsite radiological emergency response plans and preparedness program remains in effect.

If you have any questions, please contact Sean O'Leary, Chair, Regional Assistance Committee at (312) 408-5389.

Sincerely,

A handwritten signature in black ink, appearing to read "James K. Joseph".
