December 10, 1982

TVA BFNP TS 179 SUPPLEMENT 2

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Denton:

In the Matter of the )  
Tennessee Valley Authority )

Docket No. 50-260

By my letter to you dated October 15, 1982 we submitted a request for technical specification change TVA BFNP TS 179 for the Browns Ferry Nuclear Plant unit 2. That request was needed to accommodate reload 4 cycle 5 operation of unit 2 and outage-related modifications. Also, by my letter to you dated November 17, 1982 we submitted TS 179 Supplement 1 with proposed specification changes needed because of modifications being done on the unit 2 scram discharge volume. Enclosed are additional changes needed to reflect surveillance testing of the Browns Ferry electrical system (Enclosure 1). Additional description and justification for the changes are also included (Enclosure 2). We continue to need approval by January 12, 1983 as stated in the October 15, 1982 letter.

Class III fees totaling \$4,000 were forwarded with the October 15 letter. Because the enclosed change is a minor addition to the previous submittal, we do not believe additional fees are needed. Accordingly none will be forwarded.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

*L. M. Mills*  
L. M. Mills, Manager  
Nuclear Licensing

Subscribed and sworn to before  
me this 10<sup>th</sup> day of December 1982.

OFFICE OF THE DEAN

Dear Mr. [Name]:

Thank you for your letter of [Date].

I am sorry that I cannot

reply to you more quickly.

The committee has considered your application and has recommended that you be admitted to the program. We are pleased to hear from you and hope that you will find the program to be a most interesting and profitable one. We will be glad to answer any questions you may have.

Very truly yours,  
[Signature]

Dean of the University
