Gentlemen:

SUBJECT: DOCKET NOS. 50-259, 50-260 AND 50-296 BROWNS FERRY NUCLEAR PLANT RADIOLOGICAL EMERGENCY PLAN REVIEW

We have completed our review of Revisions 5-14 of the Browns Ferry Radiological Emergency Plan.

Our review indicated that the Browns Ferry Radiological Emergency Plan continues to meet the planning standards of 10 CFR 50.47(b) and the requirements of Appendix E to 10 CFR 50.

Please be reminded that 10 CFR 50.54(q) requires NRC approval of any changes to your plan which may decrease the effectiveness of the Plan. However, if your safety review indicates no decrease in emergency preparedness, then changes can be made without NRC approval. In all cases, you should furnish copies of each proposed change to the NRC in accordance with 10 CFR 50.54(q). Also, any changes to the Emergency Plan Implementing Procedures should be made in accordance with the requirements of 10 CFR 50, Appendix, E, Section V (Implementing Procedures).

Should you have any questions regarding this letter, please contact Mr. T. R. Decker of our staff at 404/221-2604.

Sincerely,

David M. Verrelli, Chief
Reactor Projects Branch 1
Division of Reactor Projects
