Director of Nuclear Reactor Regulation
Attention: Mr. Domenic B. Vassallo, Chief
Operating Reactor Branch No. 2
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Vassallo:

In the Matter of the)
Tennessee Valley Authority) Docket Nos. 50-259
50-260
50-296

In telephone discussions with your staff, we have indicated our need to have a period of time after a license amendment for our Browns Ferry Nuclear Plant is issued before it becomes effective. This time period is needed to allow plant instructions to be revised consistent with the changes to the technical specifications. By this letter, we are requesting that for all technical specification revisions on the Browns Ferry dockets currently under NRC staff review, that when approved, contain a provision that the license amendment be effective within 90 days of the date of issuance unless otherwise specified. Future requests for license amendment will contain a request for that amendment to be effective within some period of time after issuance.

From discussions with your staff, it is our understanding that issuance of license amendments with this implementation time period is acceptable.

If you have any questions, please get in touch with us through the Browns Ferry Project Manager.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

J. A. Domer
J. A. Domer, Chief
Nuclear Licensing Branch
