Docket Nos.: 50-387  
 and 50-388

Pennsylvania Power and Light Company  
 ATTN: Mr. Norman W. Curtis  
 Vice President - Engineering  
 and Construction  
 Two North Ninth Street  
 Allentown, Pennsylvania 18101

Dear Mr. Curtis:

SUBJECT: NRC REVIEW SCHEDULAR REQUIREMENTS FOR SPECIAL LOW POWER TEST PROGRAM  
 AND EMERGENCY PROCEDURES

To accomplish timely review of your application, it is necessary that the following schedular requirements be met. These requirements specifically relate to NRC review of your Special Low Power Test Program and Emergency Procedures for selected transients and accidents. The following lead times must be met if our evaluations are to be completed on a schedule consistent with your schedule for performing tests and proceeding with the power ascension program above 5% of full power.

1. Procedures for conducting the Special Low Power Test Program must be submitted at least 4 weeks prior to authorization to perform the test.
2. Revised emergency procedures prepared in accordance with staff comments must be submitted at least seven weeks prior to completing our review; procedures walk-throughs in your control room must be completed at least 2 weeks prior to issuance of a full power operating license.
3. The results of the Special Low Power Test Program must be submitted for NRC review 2 weeks prior to proceeding above 5% of full power.

Implicit in the above requirements is the assumption that NRC requests for any additional information on the above matters will be answered in 1 - 1 1/2 weeks.

Sincerely,

Original signed by  
 Robert L. Tedesco

Robert L. Tedesco, Assistant Director  
 for Licensing
