SUSQUEHANNA STEAM ELECTRIC STATION
PIPELINE ANALYSIS INFORMATION
ER 100450 FILE 841-2
PLA-970

Dear Mr. Schwencer:

The Pennsylvania Gas and Water Company has installed a new natural gas pipeline along township road T419 just north of the Susquehanna plant. This pipeline is not presently described in the FSAR or the SER.

PP&L has initiated an analysis of this pipeline and the potential impacts on the Susquehanna plant. We will inform you of our conclusions and proposed modifications, if any are required, after our analysis is complete. The Susquehanna FSAR will be revised at a later date, to reflect the final resolution of this concern.

This information was given to Mr. R. Perch by W. E. Barberich in a phone conversation on November 20, 1981.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
