SUBJECT: Draft Supplement to Draft Environmental Statement, NUREG-0564, March 1980

The Draft Supplement to the Draft Environmental Statement, NUREG-0564, March 1980 has been reviewed by the Bureau of Radiological Health, Food and Drug Administration. We previously commented on March 9, 1973 (copy attached) on the radiological health and safety aspects of the Draft Environmental Impact Statement (DEIS) related to the operations - Susquehanna Steam Electric Station, Units 1 and 2. This draft supplement to the DEIS is limited to a description of the environmental impacts of construction and operation of a water storage reservoir in the Pond Hill Creek drainage basin. We have no applicable comments.

Thank you for the opportunity of reviewing this draft statement.
