SUSQUEHANNA STEAM ELECTRIC STATION
SER OUTSTANDING ISSUE # 36
ER100450 FILE 841-2
PLA-803

Dear Mr. Schwencer:

Pennsylvania Power & Light Company will install an interlock between the inboard main steamline isolation valve and the MSIV-LCS . This interlock will prevent the operation of the MSIV-LCS when the inboard main steamline isolation valve is open. This interlock will be installed prior to the startup following the first refueling outage.

This letter completes our action of SER Outstanding Issue #36.

Very truly yours,

N.W. Curtis
Vice President-Engineering and Construction-Nuclear
