Dear Mr. Schwencer:

This letter is in response to a telephone conversation between our Mr. W.E. Barberich and your Mr. R. Perch during which an extension of 45 days was requested for responding to your evaluation of our design plan for the Susquehanna SES Emergency Response Facilities.

This request is necessary in order for us to respond to the level of detail indicated by your questions. This is particularly true for our safety parameter display system for which a vendor has not yet been selected. We anticipated selecting a vendor in the next two weeks.

We understand from Mr. Perch that this extension is acceptable.

Very truly yours,

N. W. Curtis
Vice President-Engineering & Construction-Nuclear
