TVA BFNP TS 199 SUPPLEMENT 3

Director of Nuclear Reactor Regulation
Attention: Mr. D. R. Muller, Project Director
BWR Project Directorate No. 2
Division of Boiling Water Reactor Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Muller:

In the Matter of the) Docket Nos. 50-260
Tennessee Valley Authority)

In accordance with the provisions of 10 CFR Parts 50.59 and 50.90, we are enclosing 40 copies of a requested amendment to license DPR-52 to change the technical specifications of Browns Ferry Nuclear Plant unit 2 (enclosure 1). The enclosed specifications supplement those of TVA's applications for unit 2 reload license amendment dated August 23, 1984 (TVA BFNP TS 199); April 3, 1985 (TS 199, Supplement 1); and December 30, 1985 (TS 199, Supplement 2). These specifications incorporate the calibration frequencies requested by NRC's letter from you to H. G. Parris dated December 6, 1985. The specifications also add the requirements for the scram pilot air header low pressure trip. These pages should replace the identically numbered pages from TS 199 and TS 199, Supplement 2. The enclosed pages contain all the changes proposed in TS 199 and TS 199, Supplement 2.

Description and justification for the proposed changes are provided in enclosure 2. The determination of no significant hazards consideration is provided in enclosure 3.

In accordance with the requirements of 10 CFR 170.22, license amendment fees of \$150 were forwarded with license amendment request TVA BFNP TS 199 dated August 23, 1984.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

R. Gridley
R. Gridley, Director
Nuclear Safety and Licensing

Subscribed and sworn to before
me on this 29th day of April 1986.

Susan C. Parker
