SUSQUEHANNA STEAM ELECTRIC STATION  
UPDATE OF THE REPORT OF A DEFICIENCY  
IN SOLENOID VALVES REPORTABLE UNDER 10CFR50.55(e)  
ERS 100450/100508 FILE 840-4  
PLA-376

Dear Mr. Grier:

My letter, PLA-361 of May 22, 1979, confirmed and updated the status of a reportable deficiency in Circle Seal solenoid valves furnished under Bechtel purchase specification 8856-J-69B.

In the referenced letter you were advised that PP&L anticipated submitting a final definitive report of the deficiency by July 1, 1979. However, PP&L has determined that the report submitted to us by Bechtel Power Corporation requires further clarification. Therefore, on June 28, 1979 Mr. A. R. Sabol, PP&L, advised Mr. R. M. Gallo of NRC Region I accordingly and requested and received an extension until August 15, 1979 for submittal of said final definitive report.

Very truly yours,

N. W. Curtis  
Vice President-Engineering & Construction
