Hi Bob/Greg,

I am still waiting to obtain confirmation that Dr. Posteraro successfully completed his proctored cases. We need to get a letter from BTG saying that they do not issue the letter as they provided unless the cases were successfully completed or we need a statement saying that he did, or sheets used to document the cases showing that it was done successfully. I hope this makes sense. If not please call me.

Until we are able to confirm this I can't accept the notification. Please give me an expected date that this can be resolved.

Thank you!  
Robin

Jeff Xander does not work for BTG any longer, if needed we can probably track him down.  
Attached are the forms I have on record

Bob

---

Good Morning Greg,

I am having some trouble getting a response from Mr. Xander. I need more information to accept the notification for Dr. Posteraro as the completed training requirement. Normally, they provide something that states that the proctored cases were successfully completed or the completed checklist for each case. He has not responded to my email and I don't have a phone number for him. I just left a message on their website but Dr. Posteraro will not be considered an AU until this can be resolved.

Thanks,  
Robin

Hello Jeffrey,

I have a letter from you dated August 11, 2017 indicating that the subject doctor from St. Francis Hospital and Medical Center in Hartford, CT, has completed the TheraSphere training. You referenced three proctored cases but have not indicated whether or not they were completed satisfactorily. Can you provide copies of his evaluation sheets or respond with whether or not you have determined that he demonstrated successful ability to work unsupervised?

Thank you,

*Robin L. Elliott*
