BROWNS FERRY NUCLEAR PLANT - RETYPED TECHNICAL SPECIFICATIONS

In accordance with conversations with G. E. Gears of your staff and a letter from me to D. R. Muller dated July 15, 1986, we are transmitting 10 copies of the retyped technical specifications for licenses DPR-33, DPR-52, and DPR-68. This document will not constitute an amendment request since only typographical and grammatical corrections have been made. Therefore, no justification or amendment fees are provided and these specifications will become effective when received.

Inputing of the technical specifications onto a word processor was a recommendation of SAI Corporation based on their review of the Browns Ferry Technical Specifications. This recommendation and TVA's commitment to implement it were provided in Nuclear Performance Plan Volume 3, Appendix B. This commitment has now been met.

Due to the volume of material, the actual copies of the technical specifications will be delivered under separate cover.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
