Dear Mr. White:

SUBJECT: PROCEDURES GENERATION PACKAGE (TAC 44284/44285/44296)

Re: Browns Ferry Nuclear Plant, Units 1, 2 and 3

By letter dated June 22, 1984, TVA submitted to the NRC, pursuant to the requirements of NUREG-0737, Item I.C.1 as amended by Supplement 1 to the NUREG, a Procedures Generation Package (PGP) for the Browns Ferry Nuclear Plant. The NRC's contractor, Pacific Northwest Laboratory, has reviewed the PGP and prepared a Technical Evaluation Report (TER). The staff is currently reviewing the TER. As part of its review, the staff and our contractor will visit the site February 22 through February 26, 1988 to discuss the PGP. To aid TVA in preparing for the site visit, we are enclosing a copy of the TER to allow TVA to review the contractor's concerns, open items and be prepared to respond to the contractor's requests for additional information. The conclusions reached in the TER may not be the same conclusions which the staff reaches in the final safety evaluation report on PGP. The TER is being provided for information only.

Any questions concerning the site visit or TER, please contact Gerry Gears of my staff at 301-492-0767.

Sincerely,
