Docket Nos. 50-259
50-260
50-296

BROWNS FERRY NUCLEAR PLANT (BFN) - ADDITIONAL INFORMATION FOR TVA BFN
TECHNICAL SPECIFICATION (TS) NO. 246

Reference: TVA letter to NRC dated June 17, 1988, "Browns Ferry Nuclear Plant
(BFN) - TVA BFN Technical Specification No. 246"

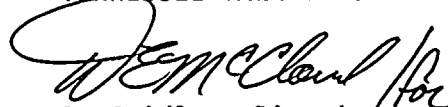

The referenced letter submitted a proposed TS change for BFN units 1, 2,
and 3. The technical specification change proposed deletion of the
organization charts from section 6 of the technical specifications in
accordance with Generic Letter (GL) 88-06.

The NRC BFN Project Manager has raised a question about the wording of the
proposed change. The proposed specifications 6.2.1.b and 6.2.1.c do not
specify position titles for the corresponding management positions identified
by the proposed specifications. To facilitate the processing of the proposed
technical specification change and to better reflect the intent of GL 88-06,
the title "Senior Vice President, Nuclear Power" may be incorporated into the
proposed specification 6.2.1.b to identify that position as the corporate
officer having responsibility for overall plant nuclear safety. Similarly,
the title "Plant Manager" may be incorporated into the proposed
specification 6.2.1.c to identify that position as the onsite management
position responsible for overall unit safe operation. These titles should
also replace those identified in enclosure 2 as the corporate and onsite
positions that satisfy these requirements.

Please direct questions you may have concerning this issue to Joe McCarthy at
(205) 729-2677.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
